Available CPD Material (4)

The rights of designers and how to protect them

This seminar aims to discuss the rights of designers. It will provide an introduction to intellectual property rights and demonstrate how they are created and protected. Topics covered will include sources of obligations, copyright, what works are protected, what rights exist, who owns them, what acts will infringe, defences, licences, BIM, remedies and avoiding disputes.

Material type:	Seminar
RIBA Core Curriculum:	Legal, regulatory and statutory compliance Procurement and contracts
Knowledge level:	General Awareness

The Construction Design Management (CDM) Regulations 2015

A review of the 2015 CDM Regulations from the principal designer and contract administrator's perspective.

Material type:	Seminar
RIBA Core Curriculum:	Health, safety and wellbeing Legal, regulatory and statutory compliance
Knowledge level:	General Awareness

Getting Paid (for architects)

This seminar will provide:
- an appreciation of how appointments should be structured and run, and steps to take if fees are not paid
- legal and contractual changes
- recent legislative changes

Material type:	Seminar
RIBA Core Curriculum:	Business, clients and services Procurement and contracts
Knowledge level:	General Awareness

Time's Up - Have You Missed the Boat?

The architect as contract administrator will be assisted in discharging their obligations as an impartial certifier when assessing whether extensions of time for the contract period are due or not. The material covers the legal and contractual bases for extensions of time, and examines the technical and practical methods of assessment, and considers further legal issues arising from the issues of claims for extensions of time.

Material type:	Seminar
RIBA Core Curriculum:	Business, clients and services Procurement and contracts
Knowledge level:	General Awareness
