CPD Overview

JUTA are the leading manufacturer and supplier of sustainable geosynthetic materials for Gas Protection, Waterproofing & Containment Engineering.

Our innovative, time-saving and cost-effective solutions are matched by our outstanding customer service and industry knowledge. JUTA UK is one of the world's most respected and leading manufacturers of geosynthetic materials.

Available CPD Material (1)

**Waterproofing Underground Structures: The Evolution of Gas Protective Measures**

This seminar is designed to increase awareness of the requirements of structural waterproofing design for new builds, in relation to BS8102:2009, and the requirements to consider ground contamination and ground gas hazards, in relation to BS8485:2015, such that appropriate material selection can be made at an early design stage. It will help you to understand the following topics:

- Structural waterproofing
- Ground gas protection
- Conflicts in the guidance
- Current practice
- Practical considerations for design
- The next generation of materials

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Substructure

Ground works > Ground water control; trench sheeting etc.
Ground works > Protection of underground pipes and cables
Ground works > Soil reinforcement materials

External works

Enclosures: fencing, gates etc. > Fencing
Landscaping, hard surfaces, pools > Landscaping
Landscaping, hard surfaces, pools > Sports grounds

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
