CPD Overview

Available CPD Material (1)

Less Stress with Pre-Stressed

This CPD explores the difference between precast concrete lintels and prestressed concrete lintels. Topics discussed include the different types of prestressed concrete lintel available and their applications, concrete as a building material, fire resistant prestressed concrete lintel, building regulations in regard to fire rated lintels, and correct installation of concrete lintels. By the end of the CPD you should have a greater understanding of:

- How to specify prestressed concrete lintels
- Building Regulations 'Document B' in regard to fire rated concrete lintels
- The difference between precast and prestressed concrete lintels
- where to seek help and technical support from

Material type:	Seminar
RIBA Core Curriculum:	Design, construction and technology
Knowledge level:	General Awareness
