Brick Slip Facade Systems

The 'Brick Slip Facade Systems' CPD offers a comprehensive exploration of innovative architectural solutions that seamlessly blend the classic charm of brickwork with modern construction methods. From mechanically fixed systems to adhesive fixed systems, this CPD delves into the intricacies of these versatile cladding options, emphasising their fire performance, precision engineering, compatibility with various brick types, and the flexibility they offer in design. This engaging CPD equips professionals with the knowledge to make informed decisions when incorporating brick slip facade systems into their projects, ensuring both aesthetic appeal and structural integrity.

By the end of this CPD, delegates should have:

1. An understanding of Brick Slip.
2. Know about Fire Performance Awareness.
3. Understand its Environmental Benefits.
4. Know about Brick System Compatibility.
5. Know about its Design Flexibility.
