Geospatial Surveying and Best Practice

Presentation on all things land surveying. Covering types of equipment used, types of surveys and most importantly best practice and what to ask for when commissioning a survey. The idea of the presentation is to give a basic knowledge of conducting land surveys to put you in better stead when ordering a survey, speaking to clients and keeping costs low.

By the end of the CPD you should have a greater understanding of:

- Different specifications for different survey types.
- Geospatial surveys.
- How geospatial surveys fit into digital environments.

Material type:	Online Learning, Seminar
RIBA Core Curriculum:	Legal, regulatory and statutory compliance
Knowledge level:	General Awareness
