CPD Overview

PROLICHT is a globally successful manufacturer of architectural lighting and lighting concepts with its headquarters in Götzens / Tyrol. Committed to this origin - the mountain demands and promotes camaraderie and respect. Both shape the DNA of PROLICHT: A respectful treatment of the nature we love and camaraderie with employees, partners and customers are reality. Be it at home in the heart of the Alps or around the world.

Available CPD Material (1)

Matter Controlled Lighting

This CPD is an insight to the current new technology and wireless control of many home appliances, and is focused on Matter controlled lighting.

It covers the basics of the technology, how to specify safely into your projects, the credentials and installation, case studies to highlight the features of controlled lighting and the benefits in spaces and humans it can assist with.

Plus, a look into the future and how the next stages of products can assist with designing spaces.

By the end of the CPD delegates ought to:

1. Understand current Wifi protocols.
2. Understand when to specify Matter products.
3. Understand how to use Matter to define an environment.
4. Have observed how to install controlled lighting.
5. Be able to find resources for future projects.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness
