## CPD Overview

---

Clay International, is the sole UK partner of the Italian porcelain slab manufacturer Infinity surfaces.

Infinity Surfaces is part of the Concord Group which has been an industry benchmark in porcelain design and production for over 50 years.

Clay International stocks and distributes Infinity Porcelain slabs across the UK to trade professionals. A visit to their SW London warehouse and showroom is highly recommended. You can expect to get a great feel for the quality of the Infinity porcelain slabs and some of their uses from a showroom visit.

The majority of its current trade client base use 20mm and 12mm thick slabs for kitchen worksurfaces, bar tops and furniture, however there is noticeable growth in 6mm thickness for wall cladding and furniture cladding. Large 6mm slabs are also being used on floors by specialist tiling contractors.

The main aim of Clay International is to efficiently deliver Infinity porcelain slabs from its UK warehouse at competitive rates to trade professionals, supporting and helping its clients throughout the ordering and distribution process. Fantastic support from its Italian partner Infinity Surfaces, ensures speedy delivery from Italy if stock is not readily available from the UK warehouse.

The quality of the Italian made porcelain together with its unique range of colours and finishes sets the Clay offering apart from other distributors.

Clay International puts client care at the very top of its day to day business activity.

CLAY INTERNATIONAL - EXCLUSIVE DISTRIBUTORS OF INFINITY PORCELAIN
