Designing for People and Planet - The Importance of Breathing Clean Air

This seminar looks at indoor air quality and the impacts of air pollution. It's easy to take the air we breathe for granted. However, the quality of the air around us has a profound impact on our health, our environment, and even our economy. This presentation provides an overview of the sources of air pollution, the effects it can have on our health, and some steps we can take to reduce our impact on the air we share.

- The Impact of Air Quality on Health.
- The causes and components of Air Pollution.
- How to monitor air quality and why it's important, especially indoors.
- Methods of removing toxic air and pollutants.
- The importance of clean air and the role we can all play in purifying the air we breathe

Material type: Seminar
RIBA Core Curriculum: **Health, safety and wellbeing**
Sustainable architecture
Knowledge level: General Awareness
