CPD Overview

Iris Ceramica Group supply porcelain tiles to 110 countries in the world. Ambassador of sustainability and world leader in developing green solutions for our sector. Producers of superior quality porcelain for floors, walls for interior design and architecture; as well as solutions for furnitures, countertops and basins. ICG has patented a Bacterial and photocatalytic treatment that allows slabs to be antibacterial, selfcleaning, anti-pollution and anti-odour.

We thrive for excellence, and the route we are doing that through a major focus on quality, sustainability and service.

Available CPD Material (1)

Application And Benefits Of Photocatalytic Porcelain

This CPD focuses on the properties of photocatalytic porcelain - a treatment based on titanium dioxide that transforms porcelain products into environmentally active materials. It explores its characteristics and its benefits in terms of design, sustainability and certification points.

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology
Health, safety and wellbeing

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Finishes

Finishes > Ceramic and stone panels, tiles

Wall finishes: internal > Ceramic, glass, stone, brick internal wall finishes
