CPD Overview

BOYCO is proud to be a family-owned business, that design, produce and install a wide range of market-leading fixtures, fittings, and equipment for the construction industry. BOYCO are specialists renowned for delivering products prized for their quality in the following sectors:

With over 60 years of industry experience, we pride ourselves on offering products recognised for excellence, backed up by a friendly team of professionals who are always on hand to provide an exceptional level of customer service and after-sales support.

Built to last, BOYCO has been the brand of choice for many projects across the globe. We have completed thousands of successful projects over the years, including more than 10,000 schools and sports centres, 500 plus healthcare sites, and many hundreds for the Home Office, Ministry of Defence, and Emergency Services.

A brand that stays true to its family roots and heritage, we manufacture a huge range of fittings on-site in Stockport, Cheshire in our own, purpose-built factory. Here, our experienced technicians and factory team, (some of which have been with the business for over 30 years), use their expert skills and knowledge to fabricate BOYCO's extensive range of products.

A go-to business in the industry, our manufacturing capability, talent for creating unrivaled design work, and green innovation sets us apart. Almost all our products are coated with our unique "Hot-Dip Nylon", for unmatched style, strength, and durability. This is the only coating of its kind to be made from renewable castor oil.

A brand that you can trust the deliver, BOYCO's project management and installation services are incomparable. As a result, we are regularly asked for by name by architects, building contractors, and end-users across the UK and beyond.

Our family values make us different. We are so proud to have developed our reputation for looking after our customers and being on hand to help as much as possible. Our heritage of striving for product superiority has shaped our mission to continually create products that are simply the best for over half a century.

Want to know more about our top-of-the-class Education solutions?

We pride ourselves on creating interactive, engaging, and inspiring learning environments to help young minds thrive. From colourful classrooms to practical laboratories and safe food-technology spaces, our Highly configurable, modular educational furniture solutions lend themselves perfectly to creating practical teaching areas across schools.

BOYCO Education products include:

Our leading Healthcare products are carefully designed with patients in mind...

Over the years, we have gained extensive, in-depth industry knowledge to develop cutting-edge healthcare solutions that offer multiple benefits to patients, health staff, and the organisations that invest in them.

Through our 50+ years of supporting the healthcare sector, we know that stringent regulations govern every aspect of a healthcare project. From knowing all legislation that governs the healthcare sector, to understanding different healthcare environment needs such as secure settings in the mental health sector and therapeutic spaces in recovery areas, our experts are here to guide you. All BOYCO products are DDA compliant and meet all clinical legislative requirements. With infection control and the utmost standards of hygiene at the forefront of our minds for healthcare projects, we ensure that all BOYCO products are coated with anti-microbial lacquer and our 'activate' anti-microbial 'Hot Dip' Nylon. This unique feature has been formulated to stop bacteria from surviving on its surface, therefore preventing the spread of 99% of all known bacteria.

This is an excellent complement to correct cleaning procedures and is effective against E.Coli Staphylococcus aureus, Legionella pneumophila, Salmonella typhimurium, and MRSA.

BOYCO Healthcare products include:

Champions in Sport and Leisure solutions...

We understand that in the sport and leisure industry, furniture must be durable, strong, and able to withstand the tough demands of rigorous use. Our league-topping solutions have been crafted with the utmost durability in mind, to offer unrivaled quality. Tried and tested for over half a century, BOYCO products are often found in some of the finest football facilities, swimming pools, leisure centres, and gyms.

BOYCO Sport and Leisure products include:

Tough environment? Our Blue Light products are secure to the core...

Designed and manufactured to withstand the toughest environments, our invincible furniture solutions have been specially crafted for use in Prisons, MoD facilities, Fire Stations, Police Cells, and more. Having been involved in many public security projects over our 50-year history, we go above and beyond the line of duty to provide bespoke furniture solutions that have your back for many years to come. Robust, reliable, and ready for use in some of the most testing environments, our innovative designs offer incomparable durability.

BOYCO Emergency and Security products include:
