CPD Overview

Colebrook Bosson Saunders

We strive for new ways to enhance user experience through the seamless connection of people and technology.

We are international designers, manufacturers, and distributors of award-winning ergonomic products.

We are driven by our desire to create the new and to be the first in everything we do. This is reflected in industry firsts from; Wishbone, the world's first flatscreen monitor arm, to Ollin, the world's first dynamic monitor arm that supports weights from 0 to 9kg.

The Dawn of a Truly Mobile Workforce: Ensuring Healthy Working Habits with Technology in the Office of the Future

This CPD seminar will give you a deep dive into how mobile working practices have been shaped over the past few years, and how we predict some trends to become permanent as we look forward, towards the workplace of the future.

We then highlight the risks associated with these changes to working styles and suggest controls to mitigate these. Finally, we will look at the benefits that flexible, mobile working brings to individuals and organizations.
