CPD Overview

Available CPD Material (2)

Digital Signage and Wayfinding as part of the building design

Digital signage is about environments, productivity and being connected in the workplace. Understanding the benefits will allow the digital strategy to be most effectively deployed and in some cases be built into the design rather than being an afterthought or enhancement? Creating a digital signage and wayfinding strategy that fits into the story of a building and improves the overall experience for visitors and employees.

Online Learning

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Multiple formats

Innovation in Materials, Sustainability and Systems

Great sign design starts with innovation, a creative vision, and a team of collaborative thinkers. It comes to life with the best materials, exceptional finishes and cutting-edge systems. The choice of materials used within the sign design needs consideration for sustainability, this is about small actions making big differences.
