CPD Overview

UZIN provides the UK's flooring professionals with ecological, innovative and high quality adhesives, smoothing compounds, underlays and damp proof membranes. From new installations to renovation of all types of floor coverings.

With smoothing compounds and damp-proofing systems and adhesives, the whole range comprises practical products and solutions for today's craftsman in interior furnishings.

It takes a high degree of effort and creativity to fulfil the vision you have given your clients. It requires attention to detail and an uncompromising requirement for solutions to issues that your projects demand. In recent years flooring installations can be compromised with cheap and low quality subfloor products which can affect the durability and appearance of the floor.

UZIN promises that its product systems are of the highest quality and are safe for the environment. It will be there for you, offering you the highest level of technical support. Our expertise includes:

- Expediting projects with short time frames.
- Rapid remedial repairs.
- Ensuring the flooring is compatible with environmental building certification such as BREEAM.
- Refurbishing floors without closing down a business.
- Advice and support.

Installation systems for floor coverings and wood flooring
