CPD Overview

For nearly 60 years, PFC Corofil has been one of the UK's leading manufacturers of passive fire protection products, helping to maintain the safety of many different building types, right across the UK. In that time, we have become a familiar and trusted brand for the UK construction industry. We offer a wide range of fire-stopping products and systems that meet the requirements of current national building regulations, such as cavity barriers, linear gap seals and products to fire stop service penetrations.

Available CPD Material (1)

Fire Testing In Facades

The PFC Corofil Fire Testing In Facades CPD, provides information on the various British and European fire testing standards, for both open state and full fill cavity barriers. It will also explain the different types of cavity barrier suitable, and what to look out for when specifying.
