Ventilation Strategies and Best Practice Compliance

This CPD outlines the roadmap to ventilation compliance and current environmental and political drivers in ensuring good indoor air quality through efficient ventilation.

It will discuss the need for adequate ventilation, technical theory around ventilation strategies outlined in Approved Document F and Approved Document L and competency requirements regarding installation and commissioning.

By the end of the seminar you should have a greater understanding of:

- The health impacts of poor ventilation
- The various ventilation strategies in Part F and their suitability
- The notifiable works applications and responsibilities for incumbent installers
- How to fully meet the needs of the consumer via the specification process including long-term servicing requirements.

This CPD can be delivered to you live and remotely.

Material type:

Online Learning, Seminar

RIBA Core Curriculum:

Design, construction and technology
Sustainable architecture

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Services

Air conditioning, ventilation > Ventilation systems and ventilators
