CPD Overview

AG Paving + Building Products specialise in the manufacture of paving flags, blocks, retaining walls and facing brick.

AG are an innovative technology driven company using advanced manufacturing methods and stringent quality control that have been established for over 60 years.

Our purpose is simple: to offer solutions that make construction better, faster and safer for our customers.

Every one of our walling, paving and facing brick products are painstakingly designed and manufactured to meet the most demanding design and performance standards. Plus, of course they need to be technically robust.

As a business AG has a proud and distinguished history of pioneering new and exciting products. In recent years, with ground-breaking products such as TerraPave® Flagstones and Plaza Lineal we've redefined the boundaries of what's possible.

From complex segmental retaining walls and flooding solutions to stunning facing brick ranges our engineering and design teams have developed products that combine ease of installation with a practical functionality and visual appeal that continue to challenge and lead industry standards.

Sustainability is a key factor in AG aiming to make construction better across all elements of its business. AG work in partnership with our employees, local community, customers, suppliers, clients and all stakeholders to have a positive impact on the environment which in turn will ensure that we thrive on our sustainable business journey

Available CPD Material (3)

Multiple formats

Sustainable Paving Solutions

This seminar looks at concrete paving. It will help you to understand the following topics:

- How concrete paving is manufactured
- How concrete paving performs in contrast to natural stone
- How concrete paving bedding solutions are designed
- Understand how concrete paving bedding solutions are designed

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness

Multiple formats

Segmental Retaining Walls

This seminar is about concrete retaining walls. It will help you to understand the following topics:

- What segmental retaining walls are and how they are constructed
- Typical problems with retaining walls
- Solutions to retain soil and manage changing levels on site
- Segmental retaining wall solutions appropriate to specific situations

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness

Multiple formats

Sustainable Drainage Systems (SuDS)

This seminar is about permeable paving systems. It will help you to understand the following topics:

- How permeable paving systems work
- The design of different permeable paving systems
- Where and how permeable paving solutions should be used

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Substructure

Foundations, retaining walls > Foundations, retaining walls

External works

Landscaping, hard surfaces, pools > Paving

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
