CPD Overview

Flood Control International is a UK based specialist supplier and installer of the most comprehensive range of flood defence systems in the world: from modular demountable flood barrier systems to fully automatic flood barriers and flood gates that rise up / drop down or slide in to position as required.

Our flood doors are also rated as security and fire doors and provide effective flood protection to full height.

We ensure the right flood defence solution is designed in every instance and our unique engineering knowledge and 18 years' experience guarantee flood protection that is innovative, efficient and above all else, dependable.

We work with architects and consultants all over the world and our clients include government agencies, utility companies, commercial businesses, retail chains and nuclear power stations.

Available CPD Material (1)

Protecting Commercial Buildings from Floods

To deliver an overview of the main types of flooding
