CPD Overview

At the forefront of innovative kitchen sink and tap design, Abode specialise in exclusive products developed by their UK technical design team. On offer is a comprehensive collection of premium products in an array of materials, styles and finishes, including our instant steaming hot water tap collection, Pronteau. We bring sink and tap pairings to market which perfectly complement the latest furniture trends year after year. We are renowned for award winning product design and have been recognised by various industry awards. Established in 2002, over 20 years on and our thirst for innovation, design, quality and service remains just as strong as it was on day one. Buying Abode means complete peace of mind. We have strict quality standards, investing in the very best components and latest manufacturing techniques to ensure long-life performance across our product portfolio. All products come with a comprehensive warranty period. Abode is part of the Norcros plc group of companies, a leading supplier of high quality and innovative kitchen and bathroom products.

How to Specify & Plan Correctly for Instant Hot Water Taps in Homes

This CPD is a guide detailing what criteria an instant hot water tap must have to meet Regulation 4 for specification in residential new build, as well as an overview of the design choices available, how the products work, essential planning/installation requirements and ongoing maintenance requirements.

By the end of this CPD delegates ought to:

1. Better understand what a Hot Water Tap is.
2. Understand how to know if its suitable for a property.
3. Better understand Planning, Installation & Maintenance requirements.
4. Know more about Safety & Sustainability.
5. Recognise the selection of tap choices available
