A New Compact Option in Air Conditioning Integrating into Your Ceiling Designs

This seminar provides an overview of the specification of air conditioning units integrated into ceilings. It will help you to understand the following topics:

- The current air conditioning terminal unit options available
- A new option which saves valuable void space
- Integration with ceiling systems
- Thermal comfort
- About exposed units
- Energy saving potential

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology
Sustainable architecture

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Services

Air conditioning, ventilation > Air conditioning

Engineering

Mechanical heating, cooling and refrigeration > Central refrigeration plant

Ventilation and air conditioning > Air conditioning systems

Ventilation and air conditioning > Fan coil units

Ventilation and air conditioning > VAV equipment, terminal units

Ventilation and air conditioning > Local air conditioning systems

RIBA Core Curriculum areas

Design, construction and technology
