CPD Overview

Balco has been delivering smart balcony systems and glazing solutions since 1987.

It is immensely proud of all its innovative products and has improved quality of life for many people.

Because Balco designs, manufactures and markets in house, it can see to residents needs and create solutions.

Production takes place in Växjö, Sweden and the company has over 200 employees within Scandinavia & Europe.

Its processes are certified to ISO 9001, ISO 14001 and ISO 3834-2, making Balco unique in its market sector. This not only ensures a high level of quality throughout all aspects of production but also validates its commitment to the environment.

Balco's products offer a wide range of options in terms of design, drainage, doors, glass, colors and materials. This flexibility places high demands on it as a manufacturer and supplier. Even if the balconies appear identical, each balcony construction is unique.

Fundamental to the company's work is continuous Quality Assurance. This keeps it up to date with all the requirements and regulations applicable to the countries in which it operates.

To ensure these standards are maintained, Balco's designers have the highest technical expertise and its project managers are experienced solution seekers.

Available CPD Material (1)

Bigger Brighter Better Balconies

This seminar provides an introduction to open balconies and wintergardens. It looks at the advantages of their inclusion in property design and the resident wellbeing that can be achieved with well thought out balcony space. It will help you to understand the following topics:

- Understand design considerations for both new build and fitting balconies retrospectively to existing building
- Understand why we need balconies and the advantages of their inclusion into new build properties
- Understand the benefits of enclosing a balcony
- Understand the relevant legal issues and regulations

Material type: Seminar
