CPD Overview

Tristone UK Limited is the sole distributor of Tristone Solid Surface in UK and Ireland. Tristone® is an acrylic solid surface, manufactured by Lion Chemtech. Tristone® is seamless, non-porous, resistant to heat, moisture and bacteria. Tristone® can be joined seamlessly and thermoformed. The design potential for Tristone® is limitless.

Benefits of Solid Surfaces in Architectural Applications

This seminar provides an outline the practical uses of acrylic solid surfacing material in commercial applications. It also covers the features of solid surface, the colour variations, and the bespoke colours that can be developed with solid surface. This CPD will help you to understand the following topics:

- Understand the features of acrylic solid surfacing
- Understand the practical uses of acrylic solid surfacing material in commercial applications
- Understand colour variations of acrylic solid surface and achievable effects
- Understand the certification attained by conventional acrylic solid surfacing
- Understand the production process of acrylic solid surfacing
- Understand the fabrication and installation of solid surface materials
