CPD Overview

At Modulyss, a Belgian brand of high-end carpet tiles for commercial use, we acknowledge the importance of circular and Cradle to Cradle Certified flooring solutions that offer an endless amount of creative possibilities. We never compromise on quality and tailor our products to the needs of our clients while keeping contemporary design requirements in mind. We believe modularity can match the distinctive character of every creative design and space. As such, our commitment has already been translated into numerous renowned projects worldwide.

Available CPD Material (3)

The Circular Economy

This CPD explains circularity and how we can reduce our impact on the natural environment, protecting our planet for future generations through the specification of sustainable products in construction. We explain the principles of the circular economy.

By the end of the CPD you should have a greater understanding of:

- What Circularity Means
- How to measure it
- How soft flooring products can contribute to circularity
- How to distinguish circular products from the average
- How we expect the transition towards a circular economy to evolve in the future | Lexicon

Material type: Seminar

RIBA Core Curriculum: Sustainable architecture

Knowledge level: General Awareness
