Lighting in Public Spaces

The main objective of this seminar is to raise awareness of the challenges and opportunities of lighting design in the public realm. It will help you to understand the following topics:

- Understand lighting design in the public realm
- Understand safety and sustainability issues in relation to lighting public spaces at night
- Understand livability and well-being in relation to lighting public spaces
- Understand how implementing dynamic and adaptive lighting design can redefine public spaces and benefit commercial activity

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness
