CPD Overview

With over 35 years of experience, Papergraphics Limited is one of the UK's leading suppliers of media and equipment to the wide-format print industry. Based in Crawley, West Sussex, with offices in Scotland, Belgium, Spain and the Netherlands. Papergraphics employs over 100 people, with a wide range of experience and knowledge. This enables the company to meet the needs of a network of specifiers, print companies and installers throughout the UK, Europe and Scandinavia. While offering, unique and innovative product lines, underpinned with unrivaled technical knowledge, support and customer service.

In 2004, Papergraphics launched the Digimura range of digitally printable wallcoverings, suitable for the commercial interiors market. Since then, Digimura has become the "preferred" digitally printable wallcovering material, for printers, installers, specifiers and end clients alike. Furthermore, the addition of Décortex, (a range of printable roller blind fabrics), reinforces the desire of Papergraphics, to help its customers and their clients to create outstanding interiors and to grow their businesses.

Picture This! A Specifier's Guide to Construction Products Regulations for Digitally Printed Wallcoverings and Graphics

With so many different types of Digitally Printable products available for use within interiors, are you certain that you are selecting the correct product?

We will explain the differences between the types of products available and what those differences mean to you as a specifier. We will familiarise you with the relevant sections of the Construction Products Regulations and the UK Building regulations, relating to these products. We will give you the means to ensure your materials meet EN15102 product performance requirements, have a declaration of performance and are displaying an approved CE Mark. Following this CPD, you can be confident when specifying bespoke, digitally printed wallcoverings and graphics for interiors.
