CPD Overview

Established in 1976, Meganite specialized in manufacturing acrylic solid surfaces with over 40 years' experience. Headquarter in the United States, Meganite is a global surface brand with distribution in over 35 countries. Our professional team supports the specification journey from in-design phase to the construction phase by providing expert advice and product/technical knowledge throughout.

**Infection Prevention Begins With Design**

This CPD gives an overview of the selection of interior surfaces to support infection prevention.

By the end of the CPD you should have a greater understanding of:

- The differences between antibiotic resistance and antimicrobial resistance.
- How surfaces support the acquisition and transmission of deadly pathogens.
- Design strategies to mitigate healthcare acquired infection.
- The benefits of antimicrobial solid surface material and the key areas the material can support infection prevention.
