CPD Overview

House of Rohl is a curated portfolio of specially selected kitchen and bathroom brands representing the highest standards of design and quality, each with a unique story to tell.

Discover House of Rohl's collection of kitchen and bathroom brands:

Perrin & Rowe products are handcrafted in Britain to the highest quality. Combining engineering and time-honoured techniques resulting in pieces which are built to last - [Click here](#)

Riobel is a Canadian brassware manufacturer - with innovative designs that not only look beautiful, but are also built from the inside out - the engineering comes first - [Click here](#)

Shaws of Darwen's heavy duty fireclay sinks are made by hand by master craftspeople. The classic and iconic designs are made to endure, and are handcrafted for life - [Click here](#)

Victoria + Albert baths and basins are a work of art. Each piece is crafted in South Africa from a unique composite material, resulting in beautiful, robust pieces for an indulgent bathing experience - [Click here](#)

House of Rohl Factory tour

Factory tour of the brass foundry in Wolverhampton, available both on site and as virtual.

Available on site, but not everyone might be able to spend a day away from their workday visiting, so they also created a virtual tour.

We will examine how products are made, using time honoured craft, mixed with modern technology and carried out by a skilled team all in the UK. We'll see 8 different processes from the factory as well as share information around materials, components and testing.

Material type: Factory Visit, Online Learning

RIBA Core Curriculum: **Design, construction and technology**
Sustainable architecture

Knowledge level: General Awareness

**Compact Luxury Design**

This CPD seminar covers the history of the hotel market, where it's going and how to design a small bathroom that fulfills high expectations and delivers on high quality.

The seminar will encourage attendees to think outside of the box creatively, as well as informing them on key regulations and human factors that affect every bathroom.

Attendees will leave with functional and design-led ideas for a minimal space, as well as their own bathroom floorplan that they will have designed themselves.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness
