## CPD Overview

---

Adexon Fire & Smoke Curtains is the Cubex group business that focuses entirely on fire and smoke curtains. Since 2005 Adexon has been dedicated to improvement and raising the bar. For Adexon this translates into improving fire safety. This has taken on even greater significance post-Grenfell. You can read more about the significance and need for fire safety improvements here <https://www.adexon-uk.com/about/>.
