CPD Overview

A UK-based lighting manufacturer and supplier, Applelec specialises in LED lighting technology. The company works with architects and lighting designers to support the integration of its award winning, edge lit, LED Light Sheet in their designs.

A bespoke light panel, LED Light Sheet, has been chosen to light luxury British brands including Mulberry, Jimmy Choo and Molton Brown and was specified by architects Foster + Partners for their first hotel project, ME London.

Available CPD Material (2)

Design with OLED

This CPD covers the design opportunities for Organic Light Emitting Diodes (OLEDs). It will help you to understand the following topics:

- Understand about OLEDs and the benefits of OLED lighting technology
- Understand the human centric lighting qualities that OLED present
- Understand design possibilities and inspiration for integrating OLED into lighting projects
- Understand appropriate power management for the OLED light panels
- Understand installation opportunities and guidance for use with OLED

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Edge Lighting: The Perfect Backlighting Solution

This CPD at a glance:

- Technical information on LED Light Sheet
- Learn how panels can be adapted to suit your project needs
- Power management options
- Case studies on backlighting solutions using edge-lit panels
- Advice on installation methods

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness
