CPD Overview

Granada Secondary Glazing is a specialist designer, manufacturer and installer of aluminium secondary glazing.

The company's discreet systems lead the fight against noise pollution, whilst delivering improved building energy performance and efficiency.

As the UK's largest manufacturer of secondary glazing, it supports a huge variety of award-winning construction and renovation projects – specialising in heritage and listed buildings.

The company has helped drive the sector forward through major contracts with national partners including hotel chains, museums, housing associations, the NHS and other commercial bodies, whilst gaining a considerable reputation amongst heritage and commercial clients, and a respected network of installers.

This experience is backed up by accreditation from both the Achilles Building Confidence and Constructionline schemes, in addition to longstanding BBA, CHAS and ISO 9001 awards.

Understanding Secondary Glazing

This 45-minute CPD session is designed to inform designers, architects and specifiers of the many outcomes and benefits of including a secondary glazing solution within their projects. The session is to be delivered by a member of Granada's commercial sales division and will, in detail, outline the situations in which secondary glazing should, and can, be specified. By the end of the CPD you should have a greater understanding of:

- The many benefits of secondary glazing
- The typical applications for secondary glazing, particularly in listed and conservation controlled buildings
- The key considerations when designing a scheme that requires secondary glazing

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Secondary Glazing For Refurbishment & New Build Applications

This seminar will provide:

- A better understanding of Secondary Glazing and its usage.
- Understanding how Secondary Glazing can be utilised in listed properties.
- Considerations when specifying Secondary Glazing.
