CPD Overview

Laudescher acoustic panels offer a wide range of advantages: ease of cutting components to size, integration of technical elements, flexibility of mounting systems and durability. The design of the products, combined with standard mounting systems on the market, ensures cost savings for companies as a result of shorter installation times.

Available CPD Material (1)

Timber Systems, Aesthetics, and Performance

This seminar with outline:

- Timber sourcing and sustainability
- Regulatory requirements for timber systems
- Manufacturing and installation of catalogue and bespoke timber systems
- Specification of timber suspended ceilings, wall claddings and timber openwork facades.
- Improving the acoustics thanks to timber systems

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Sustainable architecture

Knowledge level: General Awareness
