### Learning is a Social Process: Designing for Effective Informal Learning

This seminar will discuss how and why learning is a social process and address the relationship between effective informal learning and the design of learning environments. It looks at understanding current and future students' needs and how technology and forthcoming design trends are helping to influence these environments. The seminar will help you to understand the following topics:

- Understand what is informal or social learning
- Understand the development and design of successful social learning environments
- Understand the look, future design trends set to inspire learning environments

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Designing for Shared Space and Creativity

This seminar looks at future design trends, space design and furniture application in the workplace. It will help you to understand the following topics:

- Understand future macro trends relating to workplace design
- Understand the influence of new ways of working on design, including co-working, collaboration and the home office
- Understand how workplace benefits can be incorporated through these trends
- Understand the use of furniture to influence workplace space design
- Understand movement in workplace spaces and the influence of materials and colours on workplace wellbeing

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Designing for Talent, Retention and Wellbeing

This seminar looks at future design trends and the workplace benefits that can be incorporated through design and the use of furniture to promote wellbeing. It will help you to understand the following topics:

- Understand macro design trends and identify forthcoming trends such as biophilia, wild urbanism, and digital nomads, designing for millennials and for work at home
- Understand the benefits of knowing these trends and how to apply them in furniture and workspace design
- Understand the influence of materials and colours and the use of furniture on workplace wellbeing

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness
