Available CPD Material (1)

Height Safety Systems

This CPD Presentation is designed to provide detailed legislation, product and installation information to allow the attendees to specify and integrate Work at Height Systems into their project designs. Topics covered include an introduction to Work at Height, applicable legislation, duties when designing and specifying Work at Height Systems, and an overview of access solutions and their benefits. By the end of the CPD you should have a greater understanding of:

- Work at Height and the designers responsibilities
- Applicable legislation
- Access Strategy documents
- Selecting the correct access solution
- The correct inspection/testing/management criteria

Material type: Seminar
RIBA Core Curriculum: **Health, safety and wellbeing**
Legal, regulatory and statutory compliance
Knowledge level: General Awareness
