CPD Overview

Forbo Flooring Systems is a global producer of world-class flooring solutions, constantly striving to produce sustainable flooring systems that create better environments.

Forbo has a comprehensive product offer for commercial, public sector and residential interiors including their long established market leading linoleum, project vinyl and residential collections, as well as a comprehensive collection of commercial quality carpet tiles and a unique range of flocked floor coverings. Furthermore, to prevent footborne soil and moisture from spoiling the appearance of interior floor finishes and causing unnecessary wear and tear, Forbo also provide co-ordinated and fully integrated entrance matting systems.

Available CPD Material (9)

Entrance Flooring Systems: Complying with relevant legislation and guidelines

To provide an understanding of how to specify an entrance system in order to comply with current legislation, including Health and Safety guidelines and the Equality Act 2010

Material type:

Online Learning

RIBA Core Curriculum:

Design, construction and technology
Legal, regulatory and statutory compliance

Knowledge level:

General Awareness

Electrostatically Flocked Floor Coverings: A Choice not a Compromise

This seminar offers clarification as to the positioning of product within NBS Plus and wider areas of use based on unique construction. The architect will be shown solutions to specific floorcovering issues relating to DDA compliance and other requirements.

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Legal, regulatory and statutory compliance
Knowledge level: General Awareness

Specifying Carpet Tiles for the Modern Commercial Environment

This seminar provides an understanding of product construction and properties and performance. It will guide the architect to correctly specify for both aesthetic and technical requirements.

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness

Turn Down the Volume : A Guide to Specifying Acoustic Floor Coverings

This seminar will provide:

- An introduction to the role that acoustic floorcoverings can play in achieving enhanced sound reduction in buildings
- An outline of current UK building regulations and best practice recommendations and how these apply across different sectors including health, education, residential and public buildings
- A considered review of different resilient flooring products and those additional performance characteristics that are important to the overall performance of the final selected acoustic floorcovering

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Legal, regulatory and statutory compliance
Knowledge level: General Awareness

Entrance Flooring Systems

To provide an understanding of how to specify an entrance system in order to comply with current legislation, including Health and Safety guidelines and the Equality Act 2010

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Legal, regulatory and statutory compliance
Knowledge level: General Awareness

The Environmental Credentials, Performance and Life Cycle Costs of Linoleum

This seminar looks at what linoleum - a natural product - really is, what it is comprised of, its environmental credentials, its performance criteria, some design possibilities and gives an insight into the life cycle costs of this traditional and versatile product.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Sustainable architecture

Knowledge level: General Awareness

Entrance Matting Systems: Complete Solutions to Maximise Performance and Minimise Risk

The aim of this seminar is to give the architect an understanding of the reasons for using an entrance flooring system and the benefits to the end-user, an appreciation of the factors affecting selection, and the need to consider selection for the beginning of the design process.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Legal, regulatory and statutory compliance

Knowledge level: General Awareness

Specifying Flooring for Electro Static Discharge

This seminar will:

- Help to understand a client's brief for ESD floorcoverings
- Ask relevant questions of ESD flooring suppliers to determine optimum choice of product
- Understand when a specialist product is required
- Know what product certifications to look for
- Appreciate the broad application of ESD products

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Specifying Flooring for Clean Rooms

This seminar will:

- Understand a client's brief for a "clean room" floorcovering
- Ask relevant questions of "clean room" flooring suppliers to determine the optimum choice of product
- Help you to know what product certification to look for in a product
- Help you to appreciate the broad application of "clean room" products

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Finishes
