## CPD Overview

---

Häfele first started in 1923 in Germany offering hardware fittings that could be delivered quickly, conveniently and reliably. The Häfele Group holds true to these values offering quality, design, innovation and functionality and is one of the world's leading suppliers of furniture fittings, architectural hardware and electronic security worldwide.

Our featured Brands include StarTec, Loox and Dialock for Furniture and Hotel Locking, aswell as exclusive features from manufacturers as FSB, GIRA, Hawa and Eku Ag. Häfele UK has established itself as the largest furniture fittings and architectural ironmongery distribution centre in the UK with an overall product range including Access Control, lever handles, butt hinges, lock cases, door closers and sliding door gear consisting of more than 20,000 products of door furniture and accessories.

The Häfele team includes Dip GAI certificate holders and Registered Ironmongers (Reg AI) who have years of experience supplying the industry. We offer a comprehensive free scheduling service, a free recommendation and quotation service for all our systems, and technical advice on the best possible professional and technical expertise in all types of construction projects including Hospitals, Hotels, Commercial Buildings, Health sector Care Homes, Retail and Residential properties.

## Available CPD Material (5)

---

### Defining Electronic Access Controls

This seminar looks at electric access control systems, the elements that make up these systems and correct specification. It will help you to understand the following topics:

- Understand the definition of an electronic access control system
- Understand the elements that make up a system
- Understand considerations for different applications
- Understand issues to be considered when specifying a system

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Specifying Architectural Hardware for Inclusive Design

To understand the various legislation covering universal access including the Equality Act, BS8300:2009 and Document M

- Specifying door hardware for accessible routes (door furniture, thresholds and opening forces)
- Specifying hardware for accessible bathrooms and changing rooms

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**  
**Inclusive environments**  
**Legal, regulatory and statutory compliance**

Knowledge level: General Awareness

---

### Specifying Door Ironmongery: A Basic Guide

This seminar will:

- Provide a guide to the five basic elements that are used when specifying door hardware
- Examine hardware that is used to hang, operate, lock, close and protect a door in detail
- Provide information on the building standards to be taken into account for each element
- Provide examples of generic door sets for common openings

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Frameless Glass Fittings for Doors Screens and Canopies

This seminar gives guidance on the correct glass types to be used with hardware for non-structural shopfronts and interior doors. It includes discussion on the different options for frameless glass designs, their appropriate uses, the basic properties of glass and design constraints for fixings.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

## The What, Why and Where of Sliding Door Gear

This seminar will enable the architect to understand how sliding systems work and in what applications sliding, sliding folding and sliding stacking systems can be used. It includes information on the mechanics of door gear systems and their advantages/disadvantages.

Material type:	Seminar
RIBA Core Curriculum:	<b>Design, construction and technology</b>
Knowledge level:	General Awareness

---

### Classifications

---

#### Subject/Product Areas (CI/SfB)

##### Structure

Doors: parts, accessories > Door furniture  
Doors: parts, accessories > Door bolts, emergency exit hardware  
External & entrance doors/screens > Shopfronts and entrance doors or screens  
Doors: general > Frameless glass doors  
Doors: general > Sliding and folding doors  
Doors: parts, accessories > Door hinges  
Doors: parts, accessories > Door locks  
Doors: parts, accessories > Door closers  
Doors: parts, accessories > Sliding and folding door gear

##### Services

Security > Access control systems

##### General products

Fixings and fastenings, ironmongery > Fixings and fastenings

##### Engineering

Communications, security, safety and protection systems > Access control systems

#### RIBA Core Curriculum areas

**Design, construction and technology**

Knowledge level: *General Awareness*

**Inclusive environments**

Knowledge level: *General Awareness*

**Legal, regulatory and statutory compliance**
