What to Consider When Specifying Fibre Bonded Carpets

This seminar is about the correct specification of fibre bonded carpets. It will help you to understand the following topics:

- The key factors to consider when specifying contract flooring
- How fibre bonded carpets meet contract flooring requirements
- The differences between sheet products, carpet tiles and carpet planks and when they should be used
- How fibre bonded carpets are manufactured
- How to identify a quality fibre bonded product and whether it is fit for the contract environment
- How fibre bonded carpets can meet environmental standards and legislation

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Finishes

Floor finishes: carpets > Carpets, tiles
