Available CPD Material (1)

Introduction to Sliding and Folding Door Gear

This presentation provides information that architects and designers need to know when specifying sliding and folding door gear to create flexible and versatile space solutions. It will help you to understand the following topics:

- Understand what sliding and folding door gear is, where it can be used and why you would use it
- Understand the various system types available and how and when to use them
- Understand how to specify the correct system based on clients requirements
