CPD Overview

Lorient manufacturers sealing systems for door assemblies embracing acoustic insulation, smoke control, fire protection and weather exclusion. The company also manufactures a complementary range of fire resistant glazing systems for doors, screens and partitions; together with fire and smoke resistant dampers/air transfer grilles for doors, walls and ducts.

Product ranges include:

- Architectural Seals
- Drop Seals
- Threshold Plates & Ramps
- Brush Seals
- Compression Seals
- Magnetic Seals
- Perimeter Seals
- Door Bottom Seals
- Meeting Stile Seals
- Flush Bolt + Drop Seal
- Finger Guards
- Fire Resistant Air Transfer Grilles
- Smoke Containment Air Transfer Grilles
- Fire Resistant Door Hardware
- Fire Resistant Glazing Systems
- Acoustic Seals
- Smoke Seals
- Fire Seals

Available CPD Material (4)

Performance Door Design: The Basics of Sound Reduction

- The nature of sound – examining both airborne and structural transmission of sound
- Regulatory requirements and British Standards that relate to acoustic performance
 - Test procedures and interpretation of test reports
 - Effective design of door assemblies for acoustic performance, including door construction and the influence of sealing systems
 - Design conflicts between acoustic performance, durability and ease of operation of the door
 - Independent accreditation

Material type:	Online Learning, Seminar
RIBA Core Curriculum:	Design, construction and technology Legal, regulatory and statutory compliance
Knowledge level:	General Awareness

Understanding The Regulatory Reform (Fire Safety) Order 2005 & its implication for fire doors

- This CPD covers:
- Quick introduction to RRO
 - Who is responsible?
 - The dangers of fire and smoke
 - Some real-life fire door examples
 - Some low cost solutions

Material type:	Seminar
RIBA Core Curriculum:	Design, construction and technology Health, safety and wellbeing
Knowledge level:	General Awareness

The Role and Performance of Fire and Smoke Resisting Doors

- This seminar aims to help delegates to understand:
- Casualties from fire and smoke
 - Door assemblies for fire and smoke containment
 - Regulatory requirements
 - The nature and behaviour of smoke
 - Effective design of sealing systems
 - Design conflicts
 - The need for independent accreditation

Material type:	Seminar
RIBA Core Curriculum:	Design, construction and technology Health, safety and wellbeing Legal, regulatory and statutory compliance
Knowledge level:	General Awareness

Sealing Systems for Door Assemblies

This guide has been written as an introduction to the concept of door sealing. It's designed for students, or those new to the industry who want to learn 'the basics'. It can also be a helpful point of reference when reading product brochures, as a reminder of some of the key points, and for definitions of terms.

Material type:	Literature
RIBA Core Curriculum:	Design, construction and technology
Knowledge level:	General Awareness
