Products and Systems for the Protection and Repair of Concrete Structures in Compliance with BS EN 1504-2

BS EN 1504 is the British Standard for the protection and repair of reinforced concrete.

- Unique structures that started being built in the UK during the 1930's, to meet the growing level of car ownership.
- These structures are designed to have large, clear spans with minimum support.
- Exposed to water, salts, chemicals and fumes with dynamic and cyclical stresses.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Legal, regulatory and statutory compliance

Knowledge level: General Awareness

Guide to the Selection of Synthetic Resin Flooring Systems Using BS 8204- 6
