CPD Overview

F. Ball and Co. Ltd. – One of the UK’s leading manufacturers of flooring adhesives and floor preparation products for the contract flooring industry.

F. Ball develop and manufacture high quality flooring adhesives, smoothing underlayments, waterproof surface membranes, primers and a wide selection of professional tools and accessories.

Established in 1886, the company’s market leading products are tried and trusted across the contract flooring industry where F. Ball flooring adhesives, smoothing underlayments and ancillary floor preparation products offer proven reliability for applications in many various sectors including commercial, retail, education, healthcare and leisure.

Their Recommended Adhesives Guide (RAG) provides adhesive recommendations for almost 6000 brand name floor coverings from leading international manufacturers. Every recommendation has been tested in F. Ball’s advanced research and development laboratories and approved and endorsed by each individual floorcovering manufacturer.

A Guide to Subfloor Preparation and Adhesive Selection

This seminar is designed to help you with selecting the correct subfloor preparation and adhesive selection.

To specify a floor preparation that works includes:

- To be cost effective
- Provide a safe environment
- Maintain and enhance clients image
- Provide confidence that what you have specified will work

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Subfloor Preparation and Adhesive Selection

This online tutorial aims to help specifiers select the most appropriate smoothing underlayment and flooring adhesives to suit the floor construction and floorcovering type. The tutorial can be completed in stages and there is a multiple choice test which must be successfully completed in order to gain a certificate for one hour CPD.

Material type: Online Learning

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness
