CPD Overview

Founded in 1965, Sovereign has long been acknowledged as the respected name in the field of manufacturing and supplying products and equipment for the building and construction industry. The company is the acknowledged leader in remedial damp proofing, structural waterproofing and timber preservation.

Sovereign offers an extensive range of both remedial and general building products as well as an unrivalled specifications and technical service. At Sovereign we pride ourselves on offering only top quality products manufactured in Barrow-In-Furness site to our own exacting formulations.

We are committed to continually improving both our product range and service levels to ensure we can best service the demands and requirements of both existing and new customers.

Endorsements of the quality of Sovereign products can be seen by the fact that the company was awarded the Royal Warrant in 1987 as a result of its building products being used with great success in numerous Royal residences.

To be awarded British Standards Institution Registered Firm status is one of the highest accolades that any company active in industry can hope to achieve.

Sovereign was the first company in the damp-proofing field to gain BSI approval for its whole range of products.

Knowledge level:	General Awareness

A Guide to Ground Gas

This CPD gives a general overview of ground gas protection with a bit of insight into putting a robust design together for designers and specifiers.

Understanding Structural Waterproofing

This presentation focuses upon the design and application of below ground waterproofing systems for basements, cellars, retaining structures and buried podium decks. It discusses the importance of correct design principles and the considerations that must be taken into account following the guidance of BS 8102-2009 and other codes of practice.
