Why Specify Slate and Phyllite for Roofing, Cladding and Flooring

This CPD seminar aims to give an overview of the different applications of natural slate and phyllite in the industry as well as to highlight the key issues arising in the quality and performance of the natural slate market.

The seminar covers the latest British Standard requirements, the heritage slate market and the variety of applications achievable with natural slate and phyllite. By the end of the CPD you should have a greater understanding of:

- Confidently specify all natural slate products in a variety of specifications
- Identify issues that might arise from inferior quality products
- Select a reliable supplier by using the Minimum Checklist tool provided
- Understand the difference between the British and the French standard and their respective testing criteria.
