Use of Zinc in the Building Envelope

This CPD provides an understanding of the use of Zinc as an architectural material to fully appreciate its flexibility and design possibilities for traditional and contemporary architecture, from its use as roofing and rainwater systems through to modern rainscreen façade systems, also covering its sustainability profile and inherent fire safety characteristics.

Material type:	Online Learning, Seminar
RIBA Core Curriculum:	Design, construction and technology
Knowledge level:	General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Finishes

Wall finishes: external > Sandwich cladding

Roof finishes > Sheet roof claddings

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
