CPD Overview

Venesta live and breathe washrooms. Ever since the early days, innovation has been the company's inspiration, and product excellence its goal. With a commitment to setting the benchmark for design and performance, it has partnered with its clients in creating solutions that can be relied on to satisfy the most challenging and demanding briefs. Today, Venesta's expert knowledge and pioneering attitude have inspired the company's new range of commercial toilet cubicle and washroom systems that provide great product choice, value for money and uncompromising quality. And because customer care is so important to Venesta, you'll find it is breaking new ground in customer service, too.

Available CPD Material (1)

Specifying Washrooms

This presentation discusses the criteria that specifiers need to consider when designing washrooms. This covers usage; design; hygiene and maintenance; installation; building regulations and standards; and budget.

By the end of the CPD you should have a greater understanding of:

- What materials to specify in various commercial washroom settings
- The design considerations across all sectors
- How to choose suitable materials for toilet cubicles, vanity units, panelling, lockers and more - with maintenance and hygiene in mind
- How to make informed decisions about the products you specify in relation to speedier and more cost effective installation
- Relevant regulations and building standards
